

WHAT IS THE PROBLEM?

▶ The MoPac Expressway intersections at Slaughter Lane and La Crosse Avenue in southwest Austin were originally constructed in 1992 and have grown increasingly congested over the years. Traffic congestion at these intersections has created operational problems, causing travel delays and adversely affecting access, safety, and mobility. If no improvements are made, the congestion will only continue to get worse for residents of southwest Austin.

Please use the space below to describe problems you have encountered at the intersections of Slaughter Lane and La Crosse Avenue.
